## Vice President of Global Research & Development for Consumables and Implants

### Rakhi Jain, PhD

## Vice President of Global Research & Development for Consumables and Implants

Rakhi Jain joined Dentsply Sirona in January 2022 as Vice President of Global Research & Development for Consumables and Implants, reporting to Andreas Frank, Executive Vice President Product Group. In her role, Ms. Jain leads the Company's R&D to deliver transformative, world-class innovations for Dentsply Sirona's Consumables and Implants customers.

Ms. Jain has more than 19 years of experience in medical device design and development. She holds several patents and has coauthored multiple peer-reviewed articles in various scientific and medical journals. Additionally, she has extensive experience in leading cross-functional teams, R&D initiatives, and launching new products. Before joining Dentsply Sirona, she served as Senior Vice President, Global Research, Development, and Technology Innovation at HOYA Surgical Optics (HSO). Prior to that, she was Senior Director, Implantable Design & Development, Surgical R&D at Alcon, a Novartis company, and also worked for PowerVision and Abbott Medical Optics.

Rakhi holds a bachelor's degree in Biomedical Engineering from The Johns Hopkins University, a master's degree from Drexel University, and a Ph.D. in Biomedical Engineering from The Ohio State University.
